

MINUTES - Alcohol Task Force 6/6/19
12 - 1:30 PM Public Health Office

Attending:

Joey Burke, SADD WY
Marlene Bauman, SCSO
Robin Carnes, SC Public Health
Trisha Scott, Prevention, Public Health

Melissa Bartley, Sublette County Atty's Office
Travis Bingham, SCSO
Cassie Crumpton, SC Treatment Court

1. Report on TIPS from Marlene Bauman: 27 Sublette beverage servers and business owners trained since April 2019. Deputies Bauman and Beck are staying in touch via email with business owners and recent trainees to keep them informed on changing alcohol state laws and local ordinances. Discussion: Several cities and counties in WY have adopted mandatory beverage server training for servers and retailers, Teton County latest to require mandatory beverage server and retailer training (will require training 650 people). Is Sublette County interested in talking about mandatory training? **Action Item:** Trisha will work with Marlene and Josh to draft agenda for September task force meeting, and invite alcohol vendors and retailers to meeting to learn from them: a) what our business owners are already doing and do well, and b) what their concerns are, going forward.

2. Report on SCSO prevention messaging from Travis Bingham: Alcohol is 80-90% of all arrests that are published on Mugshot Monday. Problem right now is not having enough alcohol prevention posts to keep things interesting for readers. **Action Items:** Joey Burke will send Governor's Council and SADD resources and links to Travis to add to google doc, Trisha will research and add responsibility.org links and click bait to google doc, and Travis and Trisha will check out the highway patrol site to add the BAC "virtual bar" info. Trisha and Stephanie and SCPC will be developing website over the next 6 weeks to be able to provide links to locally developed data.

3. Report on Graduated Driver's License/Freshman Impact Event from Joey Burke:

There will be 7 learning stations for youth at this all day event for all county freshman and sophomores on Oct 8 this year. Sublette has the opportunity to determine the content of 3 of those learning stations and one of those has been proposed to be on preventing vaping. **Action Item:** Joey will be at full coalition lunch Thursday June 13 to preview Freshman Impact event to coalition, ask for volunteers, and lead discussion on suggestions for other 2 learning stations.

4. Report on Special Event Checklist for Alcohol Permit and request for approval for expenditures, from Trisha: Review and discuss Town of Pinedale Alcohol Permit Questionnaire and Community Event Checklist. Request Approval from Task Force to purchase these items for vendors to use at summer events: 5,000 12 oz disposable beer cups with "Don't Go Down That Road/Driving Impaired is a Choice" message, consistent with the Governor's Council on Impaired Driving message. Approval granted. Request approval to purchase 2 "Minor Decliner" ID scanners to keep at Public Health and loan to vendors for summer events. Approval granted. Discuss WDH approval to purchase refrigerator magnets with CDC moderate drinking info to distribute at public events. Discussion ensued: These are \$1 per magnet and may be thrown away/wasted if distributed at events like the parades. Table discussion on magnet messaging until next meeting to discuss the most effective way to distribute these, if we decide to get them printed.

5. Report on current youth diversion efforts from Melissa Bartley: Melissa reported that she is looking for community input to make the diversion program more engaging and relevant. Other counties in WY have more creative diversion programs that are hard to duplicate in Sublette because we don't have big numbers of youth to generate programming. There are generally about 12 kids

under Melissa's supervision at any given time. Court has good relationship with schools and SRO's. How to build on that? The Prevention Coalition has a mandate from members to involve youth in prevention activities, is there a way to involve the youth diversion program in building a youth coalition, and can it include leadership skill training? **Action Item:** Joey, Cassie, Melissa, and Trisha will meet June 21, 9am, at County Attorney's office for further discussion, before inviting SRO's for input, as their summer schedule permits.

Next Alcohol Task Force: Tuesday September 10, 12PM

Adjourn meeting 1:23pm
