All prevention program materials, gunlocks, 988 fridge magnet, How to Talk to Kids About.... info will be displayed and handed out.

**Agreed: Next 6 weeks of quit tobacco classes at High Country Behavioral Health begins Nov 8.**

Community members may enroll without having to be HCBH clients, they do need to sign a confidentiality agreement.

There has been a small increase in people requesting info on the quitline and free NRT.

Clinic providers contacted over the last month support the 1 click e-referral although there may be tech barriers due to HIPAA and the clinic software crossing state lines. We are researching this.

Melinda requested that we learn more about the role of the SRO in the schools so we know more about what we are advocating for.

**All members agreed to think of 1 person to invite to the 9/26 ATODS meeting from these missing sectors of the community: Oil and Gas, youth, Hispanic community.**

Next ATODS meeting is scheduled for September 26.
